Masking & Surface Release Agent MRV-1000 IPA

Product Summary for Motor & Generator Industry

- ✍️ MRV-IPA is a high performance masking agent suspended in isopropanol that exhibits excellent release and anti-stick properties.
- ✍️ MRV-IPA is used in the Motor & Generator industry to mask the adhesion of a variety of protective winding varnishes and paints, including all epoxies.
- ✍️ MRV-IPA can be applied in a variety of applications including dipping, spraying, or brushing.
- ✍️ MRV-IPA is thermally stable to 800° F and chemically stable and resistant to attack by acids and / or bases.
- ✍️ MRV-IPA has a melting point of 575° F and can be quickly spot heated to form a more durable coating.
- ✍️ MRV technology has been used for 25 years in the Motor & Generator Industry.
